

**Announcement: ELA Doctorate Workshop 2019, June 26<sup>th</sup>-June 29<sup>th</sup> 2019 in Edinburgh (UK)**

The twenty-fourth ELA Doctorate Workshop will take place in Edinburgh (UK) from June 26<sup>th</sup> until June 29<sup>th</sup> 2019 at Heriot-Watt University.

I would like to invite you to propose one doctoral student from your university, who could contribute to this workshop with an interesting doctoral research project within logistics. All fields of logistics in the broadest sense are of interest.

The nominated student is requested to prepare a three-page proposal indicating the stage of her/his doctorate research project (beginning, middle, end) and a brief description of the project (title, research objectives, methodology, expected results, list of references, etc.) and submit the proposal before **March 4<sup>th</sup> 2019**.

The application should also include a short letter of recommendation from the main PhD supervisor or Head of the Department (this letter can follow after the proposal if necessary). More information about ELA and the previous doctorate workshops can be found at the homepage of TU Darmstadt (Supply Chain and Network Management <http://www.scnm.tu-darmstadt.de> - on the right side click on ELA Logistics Association). Follows us on Facebook at: <https://www.facebook.com/ELAdoctorateworkshop/>

The ELA Research Committee will evaluate the submitted proposal and invite about 20 doctoral students to participate in the workshop. All the students have to prepare a formal presentation. The chairman and 3 other experienced logistics professors from Europe will participate as advisors and moderators during the workshop. The Kuehne Foundation is the sponsor of the workshop and it will cover accommodation and meals expenses for all the invited doctoral students. Travel costs have to be paid by the participants themselves. The ELA doctorate workshop can be highly recommended. It is an excellent opportunity for doctoral students from all over Europe to meet and establish a valuable network. Students can get 3 ECTS.

Please send the proposal as an attached document in Word to the chairman of the workshop:
