WEBINAR

PORT-CITY SCENARIOS
DURING AND AFTER THE COVID-19

Are we over the great crisis? Cities and Ports after Covid-19 Accelerators of the Future

Organised by

RETE Association for the Collaboration between Ports and Cities

Speakers

Rinio BRUTTOMESSO RETE President, Venice

Massimo CLEMENTE Scientific Director of RETE, Research Director of CNR IRISS, Naples

Carola HEIN Editor of PORTUSplus the Journal of RETE, Delft University of Technology

Josef KONVITZ Honorary Professor, Education, University of Glasgow, past Head of the Regulatory Policy Program OECD, Paris

Roberto CONVERTI Vice President RETE LATAM, Dean of the Faculty of Architecture and Design UADE of Buenos Aires

Horacio TERRAZA Urban and Cities Specialist of The World Bank, Washington

The final meeting will finalize the outputs of the three webinars “Port-city scenarios during and after the Covid-19” that took place on 4th and 18th May and 1st June 2020.

The worst seems to be over even though a state of uncertainty remains and the economic and social crisis will be very strong in the coming months. Covid-19 has certainly accelerated and exasperated phenomena that were happening anyway, revealing the fragility of the global economic system and the profound injustice in the distribution of world resources.

The focus will be on three specific port city contexts: the Mediterranean basin, the North European Seas, and the Atlantic and Pacific Oceans coasts of Latin America.

The Scientific Committee of RETE, representative of many geographical realities, expression of different competences and of complementary points of view, invites to reflect on:

- 📌 what will be and how long will the effects of Covid-19 go on?
- 📌 how port city and coastal zone management will change?
- 📌 what role can port authorities and municipalities play?
- 📌 how have changed the marine traffics?
- 📌 how have relations between port and city changed?
- 📌 how have maritime urban communities reacted?
- 📌 how the port-urban landscape is changed?
- 📌 is the ecological footprint of port cities going to decrease?
- 📌 and other objectives-questions that you would propose!

For **RETE Members**: virtual room on the ZOOM platform. Please register using the Google form: <http://bitly.ws/8LQd>

Then you'll get the Zoom link. Please download the application.

For **No RETE Members**: join Facebook live streaming on: <https://www.facebook.com/rete.digital/>

or contact RETE secretariat: secretaria@rete.digital.com
